Teaching English to people whose mother tongue is foreign can be a very satisfying occupation.

I teach the language to refugees and to people newly arrived in the UK, from VERY basic to IELTS standards.

It's a very special pleasure when students begin to talk to you in a language that you have taught them. Because I enjoy it, I have acquired masses of material.

If you are a student, or a teacher, or simply thinking of becoming a tutor, you are very welcome to the resources here.

Please have a look at the Education section, too. There are some excellent books there covering many, many aspects of [education](#) .
